

Sample Outline

Train the Trainer Course

Designed to give trainers within the industry a fresh, new approach to training. The Train the Trainer course is popular with a number of current or prospective conflict management trainers.

Objectives:

By the end of the course, delegates should be able to teach:

- Level 1 Conflict Management
- Level 2 Breakaway/Safe escape Techniques
- Level 3 Restrictive physical Intervention/Control & Restraint
- Level 4 PMVA / MOVA.

More:

It will cover some of the most up to date and modern techniques that are available and legislation that relates to conflict management. Perfect for those who are looking for a refresher or who want to learn all the knowledge that they need in order to become a training.

Every trainee who passes through the course will then be registered with the Institute of Conflict Management, allowing them to train themselves.

This is a popular course for those businesses that will have an ongoing need to teach their staff on how to deal with conflict management. They will appoint a number of staff members to be recognised as trainers and deliver the training themselves in house.

(cont...)

Note:

This is a sample course outline, we always customise to your organisation and the situational challenges that your staff may face. We look forward to working with you.
